

# CPAS User Guide - Result Visualization

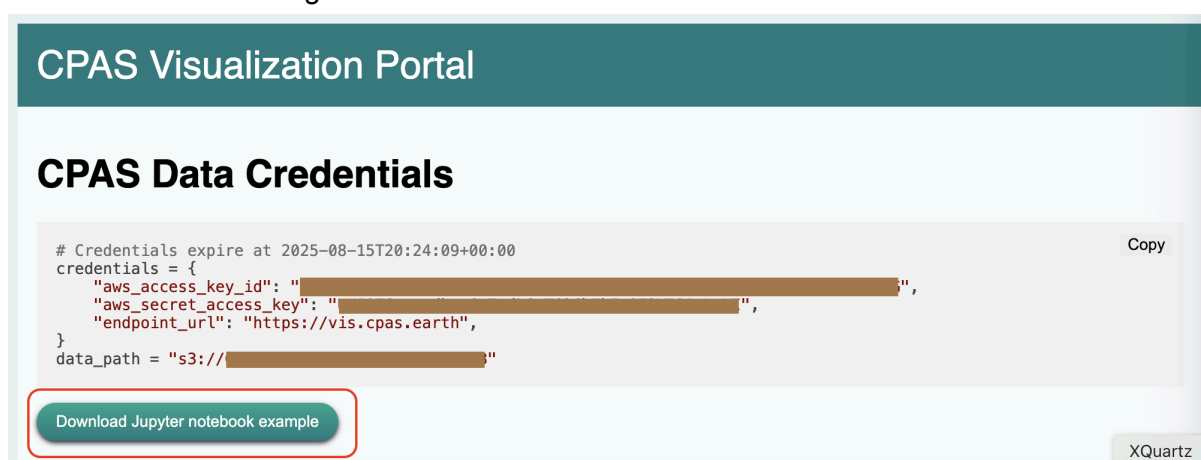

ClusterTech Limited

Aug 2025

After you sign in CPAS, click “Visualization” on the top menu.

You shall see something like:

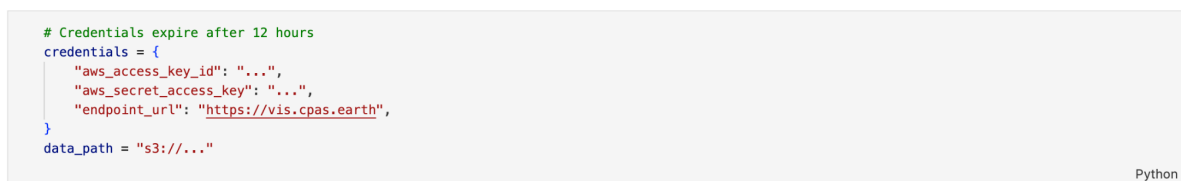

*Note: If you see any error message, go back to console.cpas.earth (click the “Back” button in your browser), sign-in and try again.*

Click “Download Jupyter notebook example” to obtain a .ipynb file. Open it in an Jupyter Python Notebook environment (your own machine or cloud hosted environment like Google Colab), and just follow the instructions there-in.

In particular, you may see a code block

## Your CPAS Data Credentials and Data path

Click the “Visualization” menu button at your CPAS console. Copy-and-paste your credential below (valid for a few hours, do again if expired)

Copy-and-paste your credential to the code block to obtain the access to your CPAS data.
